PROFESSIONAL SUMMARY

Final-year Bachelor of Science in Information Technology student specializing in Computer Science and Chemistry, with a strong interest in Cloud Computing, DevOps and Software Engineering. Certified in Microsoft Azure Fundamentals (AZ-900) and currently preparing for Microsoft Azure Administrator Associate (AZ-104). Experienced in developing full-stack applications using C#, ASP.NET Core MVC, SQL Server, Java, and Python. Passionate about cloud infrastructure, automation, CI/CD practices, system reliability, and applying DevOps principles to build scalable software solutions.

EDUCATION

Bachelor of Science in Information Technology (BSc IT) | *University of the Free State (UFS)* Expected 2026
Specialization: Computer Science and Chemistry

Relevant Computer Science Coursework: Software Engineering, Database Systems, Internet Programming, Cloud Computing Concepts, Mobile Application Development, Web Application Development, Software Design and Development

Relevant Chemistry Coursework: Analytical Chemistry, Physical Chemistry, Organic Chemistry, Laboratory Research Practices

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) — cloud concepts, Azure architecture and services, security, compliance and governance, Azure pricing and support models

- FNB App of the year: software development, python, HTML, CSS, Javascript and Bootstrap
- In Progress: Microsoft Certified: Azure Administrator Associate (AZ-104) — Azure virtual machines, networking, storage solutions, identity and access management, monitoring and governance

TECHNICAL SKILLS

Cloud & DevOps: Microsoft Azure, Azure Resource Management, Cloud Computing Concepts, IaaS, PaaS, Identity and Access Management, Virtual Machines, Networking Fundamentals, DevOps Principles, CI/CD Concepts, Version Control (Git)

Programming Languages: C#, Java, JavaScript, Python, SQL, HTML5, CSS

Frameworks & Technologies: ASP.NET Core MVC, Entity Framework Core, Bootstrap, Flutter,

Databases: Microsoft SQL Server, Database Design, SQL Queries, Database Normalization

Development Tools: Visual Studio, Visual Studio Code, GitHub, Android Studio, SQL Server Management Studio

PROJECT EXPERIENCE

LabSystem — Laboratory Management System | *ASP.NET Core MVC* | *SQL Server* | *Entity Framework Core* | *ASP.NET Identity*

Final-year software engineering project combining Computer Science and Chemistry to develop a laboratory management platform.

- Designed and implemented database structures for chemical inventory, equipment tracking, and experiment workflow management

- Developed MVC architecture with role-based user authentication and authorization
- Created CRUD operations and researcher profile management features
- Implemented PDF report generation and dashboard analytics
- Integrated frontend and backend components into a database-driven application

SOFT SKILLS

Problem-solving, Analytical Thinking, Team Collaboration, Communication Skills, Self-Learning Ability, Time Management, Research and Technical Documentation

CAREER OBJECTIVE

Seeking an entry-level opportunity in Cloud Computing, DevOps, or Software Engineering where I can apply my programming skills, Azure knowledge, and passion for automation and infrastructure management while continuing to grow as a cloud professional.
